of men's work I can not believe that Providence intended that these rich lands broad well watered fertile and waving with abundant pasturage close by mountains and valleys filled with gold and every metal and mineral should be forever monopolized by wild beasts and savage men I believe something in the survival of the fittest and hence I have fit for it all my life Civilization is a fine thing and it may spread itself like a green bay tree in the cities and lordly mansions of the Millionaires with all their silks and broadcloths but it has to have plenty of beef and pork and mutton yes yes and wool too and plenty of it But my lord and lady would go bare footed and that would be bad form and naked and that would be worse and empty and that would be awful if somebody somewhere and somehow would not send them leather and wool and beef and mutton But the herds and ocks must be raised and protected here for my lord and lady if it takes the last man and the last dollar The wolf don't like them and I trust the wolf will never come near their doors or that any of them will turn out wolves in sheep clothing but if he comes near mine I will take him in and it will be the saddest day of his life That's why I am here The wolf is the enemy of civilization and I Want to exterminate him If he eats up the ocks where are your wool and mutton to come from and what's the use of
