Handbook of Self-Regulation of Learning and Performance Dale H. Schunk, Barry Zimmerman, 2011-05-15 Self-regulated learning or self-regulation refers to the process whereby learners personally activate and sustain cognitions, affects, and behaviours that are systematically oriented toward the attainment of learning goals. This is the first volume to integrate into a single volume all aspects of the field of self-regulation of learning and performance: basic domains, applications to content areas, instructional issues, methodological issues, and individual differences. It draws on research from such diverse areas as cognitive, educational, clinical, social, and organizational psychology. Distinguishing features include: Chapter Structure To ensure uniformity and coherence across chapters, each chapter author addresses the theoretical ideas underlying their topic, research evidence bearing on these ideas, future research directions, and implications for educational practice. International Because research on self-regulation is increasingly global, a significant number of international contributors are included (see table of contents). Readable In order to make the book accessible to students, chapters have been carefully edited for clarity, conciseness, and organizational consistency. Expertise All chapters are written by leading researchers from around the world who are highly regarded experts on their particular topics and are active contributors to the field. Teaching Reading in the 21st Century Michael F. Graves, Connie Juel, Ph.D., Bonnie B. Graves, 2015-10-08 A leading text for courses in K-8 reading methods. This is the K-8 reading methods book with the strongest focus on comprehension, instruction, motivation, and assessment. Informed by the latest research on topics ranging from phonemic awareness and phonics to teaching comprehension strategies, motivation, and assessment, this text provides the knowledge base, skills, and research-based strategies that all teachers need to guide K-8 students successfully toward literacy for the 21st century using reading and writing for thinking, problem solving, and communicating. Principal themes include balancing phonemic skills with more holistic approaches, fostering the love of reading, and successfully teaching all students to become able and eager readers. The outstanding author and contributor team includes experts in phonemic awareness and word recognition: Connie Juel, Stanford University; vocabulary and comprehension: Michael Graves, University of Minnesota; children's literature and writing: Bonnie Graves, a widely published children's author; and Peter Dewitz, a national educational consultant working with schools and districts on comprehension, differentiation, and intervention. *50 Strategies for Motivating Reluctant Readers* Heidi Crumrine, 2024-02-13 Find concrete ways to support unwilling, unengaged, or struggling readers. This professional resource includes easy-to-implement classroom strategies and activities to help teachers reach reluctant readers. Have your students mastered the art of avoiding reading? Written by English teacher and literacy expert Heidi Crumrine. 50

Strategies for Reluctant Readers gives educators ideas for how to provide a variety of reading opportunities for students who don't like to read. These quick accessible strategies are perfect for getting readers engaged and excited. From building literacy to fostering a love of reading, this book offers K-12 teachers the support they need to help reluctant readers thrive.

Handbook of Motivation at School Kathryn R. Wentzel, David B. Miele, 2009-09-10 The Handbook of Motivation at School presents the first comprehensive and integrated compilation of theory and research on children's motivation at school. It covers the major theoretical perspectives in the field as well as their application to instruction, learning, and social adjustment at school. Key Features: Comprehensive: no other book provides such a comprehensive overview of theory and research on children's motivation at school. Theoretical/Applied: the book provides a review of current motivation theories by the developers of those theories as well as attention to the application of motivation theory and research in classrooms and schools. Chapter Structure: chapters within each section follow a similar structure so that there is uniformity across chapters. Commentaries: each section ends with a commentary that provides clear directions for future research.

Motivation and Self-Regulated Learning Dale H. Schunk, Barry J. Zimmerman, 2012-08-06 This volume focuses on the role of motivational processes such as goals, attributions, self-efficacy, outcome expectations, self-concept, self-esteem, social comparisons, emotions, values, and self-evaluations in self-regulated learning. It provides theoretical and empirical evidence demonstrating the role of motivation in self-regulated learning and discusses detailed applications of the principles of motivation and self-regulation in educational contexts. Each chapter includes a description of the motivational variables, the theoretical rationale for their importance, research evidence to support their role in self-regulation, suggestions for ways to incorporate motivational variables into learning contexts to foster self-regulatory skill development and achievement outcomes.
