Developing Fine and Gross Motor Skills Donna Staisiunas Hurley, 2000 This book is an excellent resource for occupational and physical therapists who are looking for ideas and reproducible handouts to give to parents or caregivers that are easy to understand It breaks down each fine motor gross motor developmental skill into four sections Desired movement How does this movement help your child How to incorporate this movement into your daily routine and What to expect next These milestones also have drawings to further explain and break down how each skill is achieved *Assessing Infants and Preschoolers with Special Needs* Mary E. McLean, Donald B. Bailey, Mark Wolery, 1996 For undergraduate and graduate courses in Assessment of Infants and Young Children with Disabilities found in Special Education Psychology and Early Childhood Education departments A unique text written for early childhood special educators and other professionals

who work with infants and preschoolers focusing on assessment for the purpose of planning effective intervention programs. The book carefully and thoroughly examines assessment issues, considerations, and procedures that can help pinpoint intervention needs and thus lead to more effective service. It presents fundamentals common to all assessment as well as those specific to the assessment of young children.

Decision Making in Pediatric Neurologic Physical Therapy Suzann K. Campbell, 1999. This new book places increased emphasis on the clinical decision making process. This state-of-the-art book is complete with thoroughly revised chapters to provide a framework for practice and to include case studies illustrating best practice in terms of measures, objectives for outcomes, and strategies for application.

Principles and Methods of Adapted Physical Education and Recreation David Auxter, Jean Pyfer, Carol Huettig, 2005. Designed for students of physical education, teachers, physiotherapists, and sports therapists, this text provides coverage of physical education and recreation for the disabled, including both task-specific and developmental teaching approaches.

Occupational Therapy for Children Jane Case-Smith, 2005. Incorporating the newly adopted OT Practice Framework, this market-leading text takes an evidence-based look at children at various ages and stages in development, comprehensively addressing both conditions and treatment techniques in all settings. Users will discover new author contributions, new research, and theories, new techniques, and current trends to keep them in step with the changes in pediatric OT practice. Case studies incorporate clinical reasoning and evidence-based structure. Key terms, chapter objectives, and study questions identify important information. Information on conditions, technology, practice models, and practice arenas describes practice in both medical and educational settings to expose readers to a variety of practice situations. Updated language and terminology in accordance with the 2002 OT Practice Framework, International Classification of Functioning, Disability, and Health (ICF) codes are integrated throughout. More evidence-based content, such as clinical trials and outcome studies with regard to evaluation and intervention, more accurately reflects OT as it is currently taught and practiced. New authors provide a fresh approach to play, social skills, interventions, visual and auditory disorders, and hospital services. Over 150 new illustrations and improved text concepts. Internet resources provide the reader with new information sources.
