E. Irving, Floyd Clymer, 2015-11-27 294 pages 130 black white illustrations size 5 5 x 8 5 inches In 1963 Temple Press UK published a revised and expanded 4th UK edition of *Tuning for Speed* and in 1965 they published a reprint of that 1963 edition Both the 1963 and the 1965 publications are identical in content and contain 294 pages a significant increase from the previous 208 page 1960 printing With a total of 294 pages the revised and expanded 4th UK edition is the most

comprehensive of all of the Tuning for Speed editions ever published Earlier editions only stretched to 208 pages and later editions shrunk to 260 pages or less as what was thought to be dated information was deleted from the contents This dated information is considered valuable today by those enthusiasts interested in vintage motorcycle tuning and modification Consequently this makes the revised 4th UK publication the most complete and desirable edition Therefore it is our pleasure to offer this reprint of the Floyd Clymer Revised 4th UK Edition or Second American Edition of Tuning for Speed to motorcycle enthusiasts worldwide Tuning for Speed was originally published in 1948 and continuously reprinted and updated in order to keep pace with the constantly evolving range of British motorcycles and engines While the primary focus of this publication is on 1965 and prior British motorcycles the theory and engineering it contains is still applicable to the current crop of high revving imports Tuning for Speed is considered by many knowledgeable motorcycle enthusiasts to be one of the best books ever written on how to improve modify and fine tune a motorcycle engine and it is often referred to as one of the top 10 classic motorcycle books The Floyd Clymer association with this publication dates back to the early 1960 s when he purchased the United States Publishing rights for Tuning for Speed from Temple Press in the UK and in 1967 Clymer published the 1st American edition of that title However by 1967 the Clymer publication had been preceded by 8 printings of the UK edition and was incorrectly identified by Clymer as a 9th edition In fact the 1967 Clymer publication is actually a reprint of the less desirable 208 page 1960 UK edition However in 1963 the 4th UK edition was revised and expanded to 294 pages with a second identical re print in 1965 Therefore this 2nd American edition of the Floyd Clymer publication of Tuning for Speed includes all of that valuable dated information that was deleted from the later editions and is identical in all respects to the 294 page 1963 1965 revised and expanded 4th UK edition with the exception that 7 pages of UK based advertising to the rear of the book are not included in the Clymer publication
