CISA Review Manual 2015 Spanish Information Systems Audit and Control Association, Isaca, 2015 CISA Review Manual 2015 French Isaca, 2015 **CISA Review Manual 2015 Italian** Isaca, 2015 CISA Review Manual 2015 Japanese Isaca, 2015 **CISA Review Manual 2015 Chinese Simplified** Isaca, 2015 Information Security Planning Susan Lincke, 2024-01-16 This book demonstrates how information security requires a deep understanding of an organization's assets, threats, and processes combined with the technology that can best protect organizational security. It provides step-by-step guidance on how to analyze business processes from a security perspective while also introducing security concepts and techniques to develop the requirements and design for security technologies. This interdisciplinary book is intended for business and technology audiences at student or experienced levels. Organizations must first understand the particular threats that an organization may be prone to, including different types of security attacks, social engineering, and fraud incidents, as well as addressing applicable regulation and security standards. This international edition covers Payment Card Industry Data Security Standard (PCI DSS), American security regulation, and European GDPR. Developing a risk profile helps to estimate the potential costs that an organization may be prone to, including how much should be spent on security controls. Security planning then includes designing information security as well as network and physical security, incident response, and metrics. Business continuity considers how a business may respond to the loss of IT service. Optional areas that may be applicable include data privacy, cloud security, zero trust, secure software requirements, and lifecycle governance, introductory forensics, and ethics. This book targets professionals in business IT security, software development, or risk. This text enables computer science, information technology, or business students to implement a case study for an industry of their choosing.
