**Keeping Special Forces Special** Naval Postgraduate Naval Postgraduate School, 2014-11-13 Regional proficiency is a critical capability in irregular warfare IW In preparation for increased engagement in irregular warfare the Department of Defense DoD and the Military Services made several significant improvements in developing regional proficiency While the DoD is attempting to create a new capability in the majority of the Total Force Special Forces was created to succeed in an IW environment As a result of its design Special Forces valued and developed regional proficiency long before this became topical in DoD Oddly the last decade of overseas contingency operations which spurred interest in regional proficiency in DoD overall has also threatened regional proficiency development in Special Forces An analysis of Special Forces training and development reveals that the Special Forces primary means of developing regional proficiency is through deployment experience While the Special Forces Groups are regionally aligned several have consistently deployed outside of their Area of Responsibility AOR to support combat operations in Iraq and Afghanistan A survey and a series of interviews were conducted to determine the state of regional proficiency interest in Special Forces Through survey analysis several trends were identified With this information this thesis concludes with a suggested strategy to improve regional proficiency in Special Forces non commissioned officers NCOs

**Keeping Special Forces Special** U. S. Military, Department of Defense (DoD), U. S. Army, U. S. Government, 2018-04-08 This unique book examines military regional proficiency Regional proficiency is a critical capability in irregular warfare IW In preparation for increased engagement in irregular warfare the Department of Defense DoD and the Military Services made several significant improvements in developing regional proficiency While the DoD is attempting to create a new capability in the majority of the Total Force Special Forces was created to succeed in an IW environment As a result of its design Special Forces valued and developed regional proficiency long before this became topical in DoD Oddly the last decade of overseas contingency operations that spurred interest in regional proficiency in DoD overall has also threatened regional proficiency development in Special Forces An analysis of Special Forces training and development reveals that the Special Forces primary means of developing regional proficiency is through deployment experience While the Special Forces Groups are regionally aligned several have consistently deployed outside of their Area of Responsibility AOR to support combat operations in Iraq and Afghanistan A survey and a series of interviews were conducted to determine the state of regional proficiency interest in Special Forces Through survey analysis several trends were identified With this information this thesis concludes with a suggested strategy to improve regional proficiency in Special Forces non commissioned officers NCOs In 2001 Afghanistan suddenly became the most interesting place on Earth for the United States defense establishment Raised from obscurity to the highest national priority Afghanistan became the primary interest for our national security organizations People with knowledge and experience in Afghanistan were suddenly some of the most valuable resources in the federal government The United States needed people with field experience and knowledge

of the region to spearhead operations in Afghanistan The 5th Special Forces Group Airborne SFG A was the Special Forces unit aligned with the region that included Afghanistan Then COL Mulholland the commander of 5th SFG A at the time stated that Special Forces lacked precise knowledge on Afghanistan because there had been little association with the country since the 1980s Only a few men had the regional and operational expertise required to conduct the operation in Afghanistan Gary Schroen a man about to retire from the Central Intelligence Agency CIA was the most qualified of a very small group Over the course of a career Schroen had developed extensive regional knowledge of Afghanistan and had personally dealt with many of the Northern Alliance commanders Had the timing of 9 11 been different Schroen could have retired and there would have been no one with the same ability within the federal government capable of executing the required mission The nation was lucky to have Gary Schroen Another example of luck is found in the British example of T E Lawrence T E Lawrence was already an accomplished scholar on Arabia when World War I erupted Lawrence escaped duties as a desk officer and became the most accomplished unconventional warrior of modern times by being a military advisor to the Arab tribes What is notable about both cases is that the person s regional expertise went largely unrecognized until a crisis manifested In the face of crisis what was largely obscure knowledge can become one of the most significant items in a military strategy It was only by luck that both nations had these types of individuals at hand at the right time The United States should not have to depend on luck to meet its national security needs      *Keeping Special Forces Special* Philip A. **Arms of Little Value** George L. Lamborn, 2012 In a dangerous era a former soldier and CIA officer proposes smarter ways to keep the US safe from the effects of insurgencies around the world What we ve been seeing in Tunisia Egypt Libya Bahrain Yemen and elsewhere in recent years is merely the beginning We are entering an extremely dangerous period in our history The author with over a quarter century of intelligence experience has been a student an observer and sometimes a participant in various insurgencies since his initiation in Vietnam in 1969 This book offers an understanding of the true nature of insurgency and a glimpse at the reasons why we have not always dealt with it effectively Drawing from his service in various Third World nations as well as several successor republics of the former Soviet Union G L Lamborn provides a crucial understanding of what ignites and sustains these movements and what can prevent them from spreading and spiraling out of control Through case studies and analysis Lamborn a former Army and Central Intelligence Agency officer seeks to explicate the importance of political action to insurgencies and explain how military power is successful only to the extent it delegitimizes an insurgency If readers accept the premise of honest critical evaluation of military power s limits there is much to be gained from Arms of Little Value Military Review      Nominations Before the Senate Armed Services Committee, First Session, 103d Congress United States.
