students with a broader view of effective practices as well as strategies for overcoming challenges faced by literacy educators worldwide The global case studies present complex issues and allow readers to discuss what it means to be globally minded as well as how to implement best practices in literacy instruction All chapters include consistent elements for ease of use such as vignettes historical and cultural contexts implications for future research and discussion questions Grounded in current research and theory this book is designed for foundational courses in literacy education and literacy methods as well as courses in comparative and multicultural education      **Southern African Books in Print** ,1994
