Wrecking Ball Stu Woolman,2021-04-29 *Wrecking Ball* explores in an unprecedented manner a decalogue of wicked problems that confronts humanity Nuclear proliferation climate change pandemics permanent technological unemployment Orwellian public and private surveillance social media that distorts reality cyberwarfare the fragmentation of democracies the inability of nations to cabin private power the failure of multinational institutions to promote collaboration and the deepening of autocratic rule in countries that have never known anything but extractive institutions Collectively or even severally these wicked problems constitute crises that could end civilisation Does this list frighten you or do you blithely assume that tomorrow will be just like yesterday *Wrecking Ball* shows that without an inclusive system of global governance the collective action required to solve those wicked problems falls beyond the remit of the world s 20 inclusive democracies 50 flawed democracies and 130 extractive elitist autocracies Flawed democracies and autocracies that already struggle to produce goods necessary for their own citizens to flourish are simply incapable of committing to international arrangements that address the existential threats posed by the decalogue of wicked problems This then is our children s inheritance Dystopias far far worse than the politics that we ourselves have known What if anything can mitigate the harms that are our legacy *Wrecking Ball* offers as an answer a ground breaking analysis of South Africa s political economy It demonstrates that this country s elitist and extractive political and economic institutions not only make resolution of ongoing domestic crises unattainable likewise they make meaningful responses to wicked problems impossible Smart people think they have all the answers Without laboring under any such illusions Martin Luther King Jr eloquently opined The arc of the moral universe is

long but it bends towards justice But what will happen King would acidly ask if we continue to dawdle and simply run out of time Wrecking Ball similary operates under no such smart pretenses and undeterred and unmatched ventures into terrrains traversed by truly great political economists Smith Ricardo Marx and Keynes By knitting together what we all know to be the facts with cutting edge theory in economics sociology history and political science the book paints an unflinching portrait of where we are and where we are headed Are we ready to be honest with ourselves about the likely future of this overheated overpopulated planet *Methodologies for Mapping a Southern African Girlhood in the Age of Aids* Relebohile

Moletsane,Ann Smith,Linda Chisholm,2008-01-01 *Methodologies for Mapping a Southern African Girlhood in the Age of Aids* is located within the new and broader area of Girlhood Studies Girls have long been considered a rich feminist memory site for examining the genesis of women s sense of self in the developed world To date however only a few scholars have focused on Southern African girlhoods Even fewer focus on methodologies for researching girlhood This is despite the particular vulnerability of girls to gender based violence and HIV and Aids and the relative complexity of doing research with girls in diverse cultural contexts in this region Thus the book aims to take this agenda forward and to investigate a range of participatory methodological and theoretical approaches that can be adapted to study girls and girlhood in Southern Africa These methodologies which look at research with girls about girls and for girls include policy research writing fictional practice and visual arts based methods to be used as analytical tools that should can and have been used to examine the lives of girls particularly in the age of HIV and Aids in Southern Africa **Black Britain and Nelson Mandela** Elizabeth
