When the first edition of University Physics by Francis W Sears and Mark W Zemansky was published in 1949 it was
revolutionary among calculus based physics textbooks in its emphasis on the fundamental principles of physics and how to
apply them The success of University Physics with generations of several million students and educators around the world is
a testament to the merits of this approach and to the many innovations it has introduced subsequently In preparing this First
Australian SI edition our aim was to create a text that is the future of Physics Education in Australia We have further
