Masters Of Wisdom The Mahatmas Their Letters:

Masters of Wisdom Edward Abdill, 2015-05-19 A rigorous historical and philosophical examination of the controversial spiritual Masters who guided Madame H P Blavatsky in opening the world to Eastern and esoteric spirituality in the late nineteenth century In the late nineteenth century Russian noblewoman and occult philosopher Madame H P Blavatsky enthralled the world with revelations of an ancient secret doctrine behind the major faiths and a cosmic theology that united the insights of religion and science Blavatsky said she was operating under the guidance of hidden Masters of wisdom or mahatmas who led her to reveal forgotten wisdom to modern people The mythos of Blavatsky's Masters left a deep mark on Western culture and spawned more than a century of debate Were the Masters real What did they teach Are they reachable today Now independent scholar of religion Edward Abdill provides an authoritative historically reliable and delightfully readable study of the background and ideas of the Masters in particular highlighting their message and its enduring relevance

The Mahatma Letters to A. P. Sinnett from the Mahatmas M. and K. H. A. T. Barker, 2013-10 This is a new release of the original 1923 edition

Theosophy across Boundaries Hans Martin Krämer, Julian Strube, 2020-11-01 Theosophy across Boundaries brings a global history approach to the study of esotericism highlighting the important role of Theosophy in the general histories of religion science philosophy art and politics The first half of the book consists of seven perspectives on the activities of the Theosophical Society in very different regional contexts ranging from India Vietnam China and Japan to Victorian Britain and Israel shedding new light on the entanglement of Western and Oriental ideas around 1900 The second half explores specific cultural influences that Theosophy exerted in the spheres of literature art and politics using case studies from Sri Lanka Burma India Japan Ireland Germany and Russia The examples clearly show that Theosophy was part of a truly global movement thus providing an outstanding example of the complex entanglements of the global religious history of the nineteenth and early twentieth centuries

The Mahatma Letters to A. P. Sinnett from the Mahatmas M. & K. H. Alfred Percy Sinnett, 1924 **Hallucinate!** Damian Timev, 2025-12-16 A brief introduction to our non existence Hallucinations are usually defined as percepts not based on reality But of course reality is never defined in this context It is merely assumed to consist of the objective material world dispersed within the time space realm This book's main thesis is that the time space matter package is not objective but a kind of hallucination itself In particular we as embodied humans are hallucinations we hallucinate ourselves into existence We support these claims through scientific results and by presenting anecdotal cases chosen from the vast library of recorded events many of which contain veridical elements Hallucinate is also a personal account of its author who has experienced hundreds of events that could be interpreted as paranormal Particularly numerous are his experiences concerning the action of consciousness over matter as well as cases of visual hallucinations of the hypnogogic type Concerning the latter we present hundreds of hallucinated scenes and describe the method used to induce them

Hallucinations when responsibly induced could be viewed as windows through which one can take a peek at the deeper reality outside the ordinary time space matter paradigm This book was motivated by events surrounding the loss of its author s first daughter The corresponding narrative constitutes the frame of the content of this book given in Chapter 0 Preludes and Chapter 10 Epilogue

Women Philosophers in Nineteenth-Century Britain Alison Stone,2022-12-14 Many women wrote philosophy in nineteenth century Britain and they wrote across the full range of philosophical topics Yet these important women thinkers have been left out of the philosophical canon and many of them are barely known today The aim of this book is to put them back on the map It introduces twelve women philosophers Mary Shepherd Harriet Martineau Ada Lovelace George Eliot Frances Power Cobbe Helena Blavatsky Julia Wedgwood Victoria Welby Arabella Buckley Annie Besant Vernon Lee and Constance Naden Alison Stone looks at their views on naturalism philosophy of mind evolution morality and religion and progress in history She shows how these women interacted and developed their philosophical views in conversation with one another not only with their male contemporaries The rich print and periodical culture of the period enabled these women to publish philosophy in forms accessible to a general readership despite the restrictions women faced such as having limited or no access to university education Stone explains how these women became excluded from the history of philosophy because there was a cultural shift at the end of the nineteenth century towards specialised forms of philosophical writing which depended on academic credentials that were still largely unavailable to women

Imagining the East Erik Reenberg Sand,Tim Rudbøg,2020 The essays in Imagining the East explore how Theosophists during the formative period imagined the religions and cultures of the East The authors examine the relationship of such representations to orientalism the history of ideas politics and culture at large and discuss how these esoteric or theosophical representations mirrored conditions and values current in nineteenth century mainstream intellectual culture The essays also look at how the early Theosophical Society s representations of the East differed from mainstream orientalism and how the Theosophical Society s mission in India was distinct from that of British colonialism and Christian missionaries
