knowledge of the latest developments in the field      Federal Register ,2012-03      Accumulation in Post-Colonial Capitalism  
 Iman Kumar Mitra,Ranabir Samaddar,Samita Sen,2016-07-29 This volume looks at how accumulation in postcolonial  
 capitalism blurs the boundaries of space institutions forms financial regimes labour processes and economic segments on one  
 hand and creates zones and corridors on the other It draws our attention to the peculiar but structurally necessary  
 coexistence of both primitive and virtual modes of accumulation in the postcolony From these two major inquiries it develops  
 a new understanding of postcolonial capitalism The case studies in this volume discuss the production of urban spaces of  
 capital extraction institutionalization of postcolonial finance capital gendering of work forms establishment of new forms of  
 labour formation of and changes in caste and racial identities and networks and securitization and thereby confirm that no  
 study of contemporary capitalism is complete without thoroughly addressing the postcolonial condition By challenging the  
 established dualities between citizenship based civil society and welfare based political society exploring critically the  
 question of colonial and postcolonial difference and foregrounding the material processes of accumulation against the  
 culturalism of postcolonial studies this volume redefines postcolonial studies in South Asia and beyond It is invaluable
