McIntyre,2009 The International Assessment of Agricultural Knowledge Science and Technology for Development IAASTD looks realistically at how we could effectively use agriculture AKST to help us meet development and sustainability goals An unprecedented three year collaborative effort the IAASTD involved more than 400 authors in 110 countries and cost more than 11 million It reports on the advances and setbacks of the past fifty years and offers options for the next fifty years The results of the project are contained in seven reports a Global Report five regional Sub Global Assessments and a Synthesis Report The Global Report gives the key findings of the Assessment and the five Sub Global Assessments address regional challenges The volumes present options for action All of the reports have been extensively peer reviewed by governments and experts and all have been approved by a panel of participating governments The Sub Global Assessments all utilize a similar and consistent framework examining and reporting on the impacts of AKST on hunger poverty nutrition human health and environmental social sustainability The five Sub Global Assessments cover the following regions Central and West Asia and North Africa CWANA East and South Asia and the Pacific ESAP Latin America and the Caribbean LAC North America and Europe NAE Sub Saharan Africa SSA      *Climate Change and Infectious Fish Diseases* Patrick T.K. Woo,Jo-Ann Leong,Kurt Buchmann,2020-09-04 This definitive reference work explores the effects of current and expected climate change taking place throughout the world on selected bacterial viral fungal and parasitic infectious fish diseases of economically important fish in tropical and temperate waters      *Fast and Scalable Cloud Data Management* Felix Gessert,Wolfram Wingerath,Norbert Ritter,2020-05-15 The unprecedented scale at which data is both produced and consumed today has generated a large demand for scalable data management solutions facilitating fast access from all over the world As one consequence a plethora of non relational distributed NoSQL database systems have risen in recent years and today s data management system landscape has thus become somewhat hard to overlook As another consequence complex polyglot designs and elaborate schemes for data distribution and delivery have become the norm for building applications that connect users and organizations across the globe but choosing the right combination of systems for a given use case has become increasingly difficult as well To help practitioners stay on top of that challenge this book presents a comprehensive overview and classification of the current system landscape in cloud data management as well as a survey of the state of the art approaches for efficient data distribution and delivery to end user devices The topics covered thus range from NoSQL storage systems and polyglot architectures backend over distributed transactions and Web caching network to data access

and rendering performance in the client end user By distinguishing popular data management systems by data model consistency guarantees and other dimensions of interest this book provides an abstract framework for reasoning about the overall design space and the individual positions claimed by each of the systems therein Building on this classification this book further presents an application driven decision guidance tool that breaks the process of choosing a set of viable system candidates for a given application scenario down into a straightforward decision tree **The Supper** Ronald P.

Hesselgrave,2019-09-17 The Lord s Supper or Eucharist has often been a subject of intense debate in the church What is often lost in this debate is the significance of the relationship of the Eucharist to Jesus Last Supper with his disciples which was a Passover or Passover like meal Moreover the Last Supper connects back to various meals in Jesus earthly ministry And it looks forward to the great messianic banquet as fulfillment of Jewish expectations In exploring these connections this book focuses on the three motifs of new creation hospitality and hope in Christ Most significantly when we break the bread and drink the wine or juice together we are asserting the reality of the new creation in Christ affirming God s grace forgiveness and cruciform love which is to be embodied in the Christian community and anticipating the day when God s present and ongoing work of restoration justice and reconciliation will ultimately prevail The Supper then is basically a condensed summary of the story of God s plan of redemption Hesselgrave brings together biblical theological ethical and social insights in a way that deepens our understanding of the meaning and practical significance of biblical texts related to this central ordinance of the church **Strategies for Team Science Success** Kara L. Hall,Amanda L. Vogel,Robert T.
