**NDF Journal** ,1998      *Namibian Defence Force journal* ,19??      *The Handbook of African Defence and Armed Forces* Evert Kleynhans,Marco Wyss,2025-03-01 The Handbook of African Defence and Armed Forces provides the first in depth and multifaceted analysis of the evolution and current state of national defence policies strategies doctrines capabilities security challenges and strategic responses of African states and their armed forces Geographically these aspects are investigated at the national sub regional and regional levels Chronologically they are analysed against the backdrop of the superpower withdrawal from the continent in the 1990s and the so called New Scramble for Africa which has seen a crescendo of renewed great power interest in the continent s resources as well as its strategic role location and relevance since the 2000s The book takes a bottom up and African centric approach and is organized around five key themes i the differing security outlooks and defence policies of African powers within the region and the different sub regions ii the strategies doctrines transformation and employment of African armed forces iii the relationship between African armed forces with sub regional regional and international organizations iv the challenges that African states and their armed forces have been facing and their strategic responses and v the position of African perspectives and agency in the context of continental and international security and defence Understanding African security and defence especially in terms of each individual nation s ability to contribute to peacekeeping operations counterterrorism border security and internal security requires a focus on the national level of armed forces and defence policies this in turns sheds light on sub regional and regional divergences challenges and cooperation Based on this framework the chapters in this volume offer comprehensive African perspectives on African and international security and defence and in doing so show the agency of the continent s countries and armed forces in International Security and Relations      Criminal Justice in the Namibian Defence Force Thomas Jan Lambert,2010-05 The Namibian Defence Force NDF like any other organization is responsible for the maintenance of discipline within its organization Similar to most other defence forces the NDF also has its own legal system within the force In order to determine whether the requirements for a fair trial are complied with the main objective of this work is the investigation into the justice system within the military society which includes the specific procedures the different authorities the rights of an accused and the assurance of a speedy trial The administration of justice within the military must not be regarded as an isolated system but must be measured to the provisions of the civil justice system as well as the norms set for the society as a whole Therefore the rules of evidence and general principles of a fair trial and principles of justice as applied by the public courts also apply to military courts This work should especially as reference material be useful to military officers and also to the public at large who wish to have a better understanding of the application of justice within a military environment      *Public perceptions on the Namibian Defence Force* Linus Shimi Nahole,2014      **Namibia**

South African Human Resource Management focuses on the knowledge and skills that managers at all levels need The authors integrate contemporary international research and implementation with a South African perspective *Gender and military professionalism* Theophilia Shaanika,2007 Hansard Namibia. Parliament. National Council,2008 **Towards a Common Defence and Security Policy in the Southern African**

**Development Community** Hussein Solomon,2004 From a historical post apartheid perspective this book argues that apartheid destabilisation in the Southern African sub region resulted in a particular form of regionalisation which favoured state security over human security stressed solidarity and regarded external intervention as inimical to its own interests It argues that this stance was fundamentally anti democratic and that its legacy haunts the organs SADC and the SADC Organ on Politics Defence and Security as the premier vehicles for security cooperation in the region The book argues that a further legacy of apartheid destabilisation was to foster national sovereignties at the expense of a collective regional identity the present challenge being for SADC to decide how best to move to considerations of regional security It then addresses issues such as the need to develop a common military doctrine command training and control The book is divided into three parts The first provides historical background to the current developments outlining the challenges facing the region s policymakers and citizens The second part focuses on the nuts and bolts of defence cooperation among the SADC states The final part addresses the SADC Organ on Politics Defence and Security its institutional problems and outlines possible mechanisms for correcting them The contributors are mostly connected with the Africa Institute of South Africa and the University of Pretoria Asia-Pacific Defence Reporter ,1991 **Defense & foreign affairs handbook** Gregory R.
