*Rethinking Research Methods in an Age of Digital Journalism* Michael Karlsson, Helle Sjøvaag, 2018-10-18. The digital infrastructure of media production dissemination and consumption is becoming increasingly complex, presenting the challenge of how we should research the digital journalism environment. Digital journalism takes many forms; we therefore need to revise, improve, adjust, and even invent methods to understand emerging forms of journalism. In this book, scholars at the forefront of methodological innovations in digital journalism research share their insights on how to collect, process, and analyse the diverse expressions of digital journalism, including online news, search results, hyperlinks, and social media posts. As digital journalism content often comes in the form of big data, many of these new approaches depart from the traditional methods used in media research in significant ways. As we move towards new ways of understanding digital journalism, the methods developed for such purposes also need to be grounded in scientific rigour. This book aims to share some of the emerging processes by which these methods, tools, and approaches are designed, implemented, and validated. As such, this book not only constitutes a benchmark for thinking about research methods in digital journalism, it also provides an entry point for graduate students and seasoned scholars aiming to do research on digital journalism. This book was originally published as a special issue of *Digital Journalism*.

*Pharmaceutical Industry and Public Policy in Post-reform India* Reji K. Joseph, 2015-07-24. This book examines the impact of economic reforms in India on the pharmaceutical industry and access to medicines. It traces the changing production and trade pattern of the industry, research and development, R & D preferences and strategies of Indian pharmaceutical firms, patent system alongside pricing policy measures and their shortcomings. It also analyses the public health financing system in India, driven largely by out-of-pocket expenditure about 60 per cent and characterised by very high share of medicines in total health expenditure. A masterful insight into a topical area, the work will be indispensable to those working on pharmaceutical industry and public policy. It will be of interest to researchers, scholars, students, and policy makers of economics, industrial policy, public policy, intellectual property rights, and health financing.

*Pandora's Gamble* Alison Young, 2023-04-25. Named to Kirkus Reviews Best Books of 2023. A remarkable book. The New York Times. This fearless, deeply reported book about laboratory accidents

asks the haunting question some elite scientists don't want the public to entertain: Did the COVID-19 pandemic start with a lab leak in Wuhan, China? This is an obvious question. Yet there's been an extraordinary effort by government officials in China as well as leading scientific experts in the United States and around the world to shut down any investigation or discussion of the lab leak theory. In private, however, some of the world's elite scientists have seen a lab accident as a very real and horrifying possibility. They know what the public doesn't: Lab accidents happen with shocking frequency. Even at the world's best-run labs. That's among the revelations from Alison Young, the award-winning investigative reporter who has spent nearly 15 years uncovering shocking safety breaches at prestigious U.S. laboratories for USA Today and other respected news outlets. In *Pandora's Gamble*, Young goes deep into the troubling history and enormous risks of leaks and accidents at scientific labs. She takes readers on a riveting journey around the world to some of the worst lab mishaps in history, including the largely unknown stories of the lab workers at the U.S. Army's Camp Detrick who suffered devastating infections at alarming rates during World War II. And her groundbreaking reporting exposes for the first time disturbing new details about recent accidents at prestigious laboratories and the alarming gaps in government oversight that put all of us at risk. Sourced through meticulous reporting and exclusive interviews with key players including Dr. Anthony Fauci, former CDC Director Tom Frieden, and others, Young's examination reveals that the only thing rare about lab accidents is the public rarely finds out about them. Because when accidents happen, powerful people and institutions often work hard to keep the information secret.

**White Paper on Science and Technology**, 2015     *Canadian Journal of Earth Sciences*, 2014     Russian Modernization Markku Kivinen, Brendan G. Humphreys, 2020-11-29

Building on an original interpretation of social theory and an interdisciplinary approach, this book creates a new paradigm in the Russian studies. Taking a fresh view of Russia's multiple experiences of modernization, it seeks to explain the Putin era in a completely new way. This book explores the paradoxical and contradictory aspects of Russia, analyzing the energy-dependent economy and hybrid political regime but also religion, welfare, and culture and their often complex interrelations. Written by a community of both Western and Russian scholars, this book reaffirms the value of social science when confronting a society that has undergone enormous and costly systematic changes. The Russian elites see modernization narrowly as economic and technological competitiveness. The contributors to this volume see contemporary Russia facing a series of antinomies, which are macro-level dilemmas that cannot be abolished either by philosophical mediation or by immediate political decisions. As such, they are the tension fields that constitute choices for various competing agencies. This book will be of interest to scholars and students of Russian studies, transition studies, sociology, social policy, political science, energy policy, cultural studies, and stratification studies. Professionals involved in energy, ecology, and security policy will also find this publication a rich source.

**The Horn Engaging the Gulf** Aleksi Ylönen, 2023-12-28

This book discusses theoretical perspectives of analyzing the relations between the states and non-state actors in the Horn of Africa and their counterparts in the Persian Gulf and the Middle East.

Crucially these relations are examined primarily from the perspective of the diplomatic economic and strategic agency of the African states and societal actors Here domestic political dynamics and local power play a significant role Aleksis Yl nen provides a historically informed investigation of recent relations that involve the Gulf States and Turkey's resurgent interest in the Horn of Africa The analysis focuses on the post Arab Spring period following the Iran nuclear deal and the war in Yemen Featuring case studies from Ethiopia Somalia and Eritrea which highlight engagements of the Horn state and societal actors primarily with the Gulf States and Turkey the study provides an empirical analysis of the interactions and connections between the two regions *New York Daily Tribune Indexes for ...* ,1976 **Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set)** Union of International Associations,2014-06-16 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events *The Indian National Bibliography* ,2017-04 **Indian National Bibliography** B.
