**Exploring Economic Reintegration in Namibia. Individual Trajectories of PLAN Ex-Fighters and SWAPO Exiles, 1989-2018** Tichaona Mazarire, 2023-01-18 Exploring Economic Reintegration in Namibia Individual Trajectories of PLAN Ex Fighters and SWAPO Exiles 1989 2018 draws from life histories to present constraints and possibilities that have shaped former SWAPO exiles economic reintegration in post colonial Namibia from 1989 through 2018 The book advances three arguments each of which pushes beyond existing scholarship on Namibia and or economic reintegration broadly Collectively these arguments challenge dominant narratives that have generalized former SWAPO exiles economic reintegration experiences highlighting that there is no single narrative that can describe their unique life stories of reintegration in the post colony

**Diamond Warriors in Colonial Namibia** Job Shipululo Amupanda, 2022-07-06 Diamond Warriors in Colonial Namibia enters into uncharted scholarly territory of illegal diamond smuggling at the largest diamond mining company in colonial Namibia De Beers Consolidated Diamond Mines of South West Africa CDM It details the underground activities of the natives migrant workers employed by the CDM and how these illicit activities accounted for rapid development in Owamboland Beyond this account the book takes on the deterministic natural resource curse theory that equates natural resource endowments to a curse resulting in underdevelopment and sometimes conflict It is argued and proven herein from a decolonial standpoint that such an approach is an oversimplification of the political economy of natural resources in Africa in general and Namibia in particular The text also provides a contextual account of the contract labour system and details the symbiotic relationship between CDM and the colonial state before highlighting the remaining unanswered questions and areas of further research

***Institutions and Democracy in Africa*** Nic Cheeseman, 2018-02-22 Historically African political institutions such as constitutions legislatures and judiciaries have been seen as weak and vulnerable to manipulation leading some to claim that the continent is institutionless However recent developments including the consolidation of presidential term limits in a number of countries demonstrate that this depiction is no longer tenable By drawing attention to how institutions can shape the practice of politics this book demonstrates that electoral commissions economic regulations and systems of land tenure are vital to our understanding of contemporary Africa A series of cutting edge contributions from leading scholars explain how the rules of the game shape political developments across the continent from Kenya to Nigeria and from Benin to South Africa In chapters that cover bureaucracies constitutions elections political parties the police and more the authors argue that a new research agenda is required if we are to better understand the process of democratisation
