ROOF PROFILES FOR MINECRAFT BUILDERS

These profiles can be used as is or can be extended/enlarged by continuing the roof pattern for each side. These profiles show the edge of the roof pattern. The middle areas don't need the extra underside blocks (see example). Some patterns are associated with different build styles. Clerestory, Saltbox and Butterfly can have a more modern look. Different block materials can greatly affect the overall feel of a building. Choose an appropriate block palette. Using a different material for the edges of the roof can help better define the roof and give it some contrast.

materials you need and how many blocks of each material you need to collect From there start collecting materials or start building in creative Or you can start building with what you have and collect materials along the way From there the construction of the house is crazy simple We start with layer 1 Each layer of the house is shown to you with a bird s eye view so you can clearly see which block goes where Each photo is complemented with a descriptive text version of what you need to do in that layer Then step by step layer by layer we will build the house to the top These blueprints were designed to be as clear and easy to follow as possible Because building a well designed house is hard work Finding all of the materials along with knowing what to use at which time can get confusing That s why you should start with a plan design and goal in mind This is especially relevant if you are playing multiplayer Don t be that player that builds the ugly house on the block Build something amazing that other players are jealous of and compliment you for The days of ugly houses are OVER It s time to get started and get excited about your new Minecraft home Just listen to what our other Minecraft readers have to say This ebook is amazing The images display what you need to construct so clearly Building the house was so simple and it looks better than everyone else s on our server Tim G Drake PLEASE MAKE MORE BLUEPRINTS I always built awful houses and could never be happy with them or figure out how to improve them Now I m really happy with the village I built John S Keep it up and keep them coming Drake Craft Another great series of houses to build I m super excited Whitney M Happy Crafting
