Deaf Education Beyond the Western World Harry Knoors, Maria Brons, Marc Marschark, 2019-01-16 By exploring practice based and research based evidence about deaf education in countries that largely have been left out of the international discussion thus far this volume encourages more researchers in more countries to continue investigating the learning environment of deaf learners based on the premise of leaving no one behind Featuring chapters centering on 19 countries from Africa Asia Latin America and Central and Eastern Europe the volume offers a picture of deaf education from the perspectives of local scholars and teachers who demonstrate best practices and challenges within their respective regional contexts

Mathematics Education in East Africa Anjum Halai, Geoff Tennant, 2016-03-08 This Open Access book is a valuable resource for policymakers and practitioners as it brings insights mainly from developing countries where relatively less research activity takes place It is also a valuable resource for courses in mathematics education in the teacher education colleges and departments of education in the sub Saharan Africa region In the increasingly global and technological world mathematics is seen as a significant gatekeeper of opportunities for social and economic advancement and mobility Hence countries and development agencies in the broader sub Saharan Africa region are looking towards increasing access to relevant and high quality secondary education as a lever towards economic development Policy makers and other key decision makers in education look towards improvement in mathematics teaching and learning as a key focus in education reform In the East Africa region also a number of initiatives have been taken at the national level in the respective countries to improve the quality of mathematics education This book provides an in depth comparative analysis of the developments and issues in mathematics education in Kenya Tanzania Rwanda and Uganda and advances our understanding of the state of secondary mathematics education in East Africa

Gender, Science and Technology: Perspectives from Africa Catherine Wawasi Kitetu, 2008 This sixth volume of the CODESRIA Gender Series is a collection of discourses perspectives practices and policies on the role of the female gender in science and technology particularly in the African context Although widely advocated as the indisputable foundation for political and economic power in the modern world science and technology remains marked by various layers and dimensions of gender inequality that work to the disadvantage of girls and women Despite the fact that a lot of awareness has been created and gender issues are now more readily acknowledged by various development initiatives in Africa participation in science and technology still remains a hurdle as far as girls and women are concerned A common theme that runs through the book is how feminine identities ideologies of domesticity and gender stereotypes and the inadequacy or lack of clear policies facilitate the invisibility of women in science and technology This notwithstanding women have never ceased devising clever and ingenious ways that would enable them to master nature from the margins The book provides a window onto the current state of female

participation in science and technology in Africa along with an analysis of the historical backgrounds current educational and professional contexts and prospects for the future While it is evident that more research needs to be done with more groups in different regions this volume brings together a rich and inspiring collection of qualitative insights on gender science and technology in Africa The CODESRIA Gender Series acknowledges the need to challenge the masculinities underpinning the structures of repression that target women The series aims to keep alive and nourish African social science research with insightful research and debates that challenge conventional wisdom structures and ideologies that are narrowly informed by caricatures of gender realities It strives to showcase the best in African gender research and provide a platform for emerging new talents to flower

International Research on Education for Sustainable Development in Early Childhood John Siraj-Blatchford, Cathy Mogharreban, Eunhye Park, 2016-10-14 This book offers a perspective on Education for Sustainable Development in Early Childhood ESDEC that is far removed from the business as usual notion of an extended predominantly environmental educational curriculum for preschools It presents a vision of sustainable development that has relevance to Early Childhood Care and Education ECCE from birth to school it is relevant as much to homes family support and health settings as it is to educational settings and is as much concerned with health and wellbeing as with education The book provides a perspective that is fundamentally embedded in notions of interdependency It places an emphasis upon the importance of recognising the interdependency of peoples within and between nation states the ecological interdependencies of the natural world of humanity and nature and most significantly the interdependency of adults and children These emphases have their origins in the grassroots studies included in the ten chapters representing countries from around the world The book reflects the idea that only global solutions and initiatives are capable of addressing the global challenges of climate change environmental pollution and global threats to ecological systems and biodiversity

Academic Integrity Meets Artificial Intelligence Ruth Baker-Gardner, 2025-11-13 Academic Integrity Meets Artificial Intelligence examines academic integrity practices in higher education institutions HEIs in the Caribbean assessing the current and potential impact of generative artificial intelligence tools on academic integrity and how HEIs globally have been responding
