EVENHEAT™ with Auto Moisture Sensing Plus Cycle

for your Benefit

Proper use of the EVENHEAT™ with Auto Moisture Sensing Plus cycle will dry your clothes faster and at lower temperatures with less shrinking and fading.

This cycle takes the guesswork out of drying. Dryness is determined by an electronic sensor that "feels" the amount of moisture in clothes as they pass over it. Once the cycle starts, the sensor automatically adjusts the drying time based on the size of the load and the types of fabric being dried. As a result, clothes dry faster and you get more precise drying temperatures.

The EVENHEAT™ drying system uses a solid-state sensor to prevent the large variations in drying temperatures that occur in most other dryers. More consistent, even heat in every cycle results in better fabric care by shortening drying times and by maintaining lower drying temperatures.
