Le Vieillissement Des Personnes Handicapées Mentales:

Le Vieillissement des personnes handicapées mentales Gérard Zribi, 2012 Cette nouvelle édition poursuit la réflexion amorcée par les auteurs dès le début des années 1990 autour des effets du vieillissement sur les personnes handicapées mentales et sur leur situation. Elle reprend quelques-unes des contributions antérieures toujours d'actualité auxquelles viennent s'ajouter de nombreuses contributions inédites notamment sur les éléments de projet d'établissement et de service pour un FAM et un SAMSAH.

Le vieillissement des personnes handicapées Gérard Zribi, 1992 Issu d'un colloque européen qui s'est tenu en juin 1991 à Paris, cet ouvrage présente une réflexion pluridisciplinaire européenne sur le vieillissement des personnes handicapées d'un point de vue social essentiellement mais aussi familial, psychologique et médical.

Le Vieillissement Des Personnes Handicapées Mentales - 4e Edition Gérard Zribi, 2017

Le vieillissement des personnes handicapées mentales, 2017-10-19 L'accompagnement des personnes handicapées mentales lors de leur vieillissement revêt une acuité particulière de nos jours. L'allongement de leur espérance de vie met les professionnels, les familles et les décideurs publics face à leurs responsabilités. Cette nouvelle édition rassemble quelques-unes des contributions antérieures toujours d'actualité auxquelles viennent s'ajouter des textes inédits. L'ensemble constitue un ouvrage profondément remanié associant analyses théoriques, psychologiques, sociologiques, institutionnelles et illustrations concrètes de réponses de projets et de pratiques professionnelles. Les auteurs proposent ainsi aux personnes handicapées et leurs familles, aux associations et aux pouvoirs publics une approche sensiblement modifiée par l'ampleur du phénomène du vieillissement, par l'accroissement des droits des usagers et par la transformation profonde des interventions sociales et médico-sociales.

LES PERSONNES HANDICAPÉES VIEILLISSANTES Bernard Belin, 2001-01-01 Si nous avons une expérience de ce qu'il convient de faire pour permettre aux personnes âgées devenant handicapées de vivre dans notre société et dans les meilleures conditions, nous nous sentons beaucoup plus à l'aise face aux problèmes posés par le vieillissement des personnes handicapées mentales ou physiques. Il convient de définir les besoins de ces personnes, les mesures à prendre, les moyens à mettre en œuvre pour pallier les carences actuelles et ceci notamment en matière de structures d'accueil, d'accompagnement et de soutien.

Prescription des activités physiques Frédéric Depiesse, Olivier Coste, 2016-02-09 L'activité physique au-delà du sport de loisir ou de compétition fait l'objet de véritables recommandations des fins thérapeutiques. La prescription de ces activités physiques sur ordonnance est un acte médical de prévention de soins et d'éducation pour la santé des porteurs de pathologies chroniques et celle des sédentaires. Cette pratique est au cœur de l'actualité. Cette nouvelle édition entièrement revue et corrigée

par des spécialistes de la discipline apporte toutes les connaissances et conseils nécessaires pour la prescription au quotidien des activités physiques par les médecins et par les autres professionnels de santé. Très pratique, l'ouvrage s'articule autour de trois grandes parties qui abordent successivement le développement et la mise en place des activités physiques pour la santé, les prescriptions indiquées selon la pathologie de la personne (cancer, maladie neurologique, cardiovasculaire, asthme, etc.), les particularités à prendre en compte en cas de grossesse et les spécificités liées à l'âge. En annexe, le lecteur trouvera des outils d'accompagnement, des questionnaires de quantification de l'activité physique, de santé, de risque cardiovasculaire, etc. Finalement, la loi de santé adoptée fin 2015 et aux prescriptions de l'HAS concernant les thérapies non médicamenteuses, cet ouvrage s'adresse aux médecins du sport, aux médecins de médecine physique et de réadaptation, aux médecins généralistes, aux étudiants des UFR STAPS, aux kinésithérapeutes et aux éducateurs sportifs.

Personnes handicapées âgées, où en est-on ? Bernard Belin, 2003-03-01. Le cadre défini par la loi d'orientation sur le handicap de 1975 est devenu inadapte. La révision en cours, cette loi devrait permettre d'améliorer l'ensemble du dispositif de prise en charge des personnes handicapées vieillissantes. Elles ont besoin de réponses individualisées et souples confortant leurs repères. Ces réponses vont du maintien domicile avec les services d'auxiliaires de vie, la maison de retraite et aux unités spécialisées dans les foyers de vie. Il s'agit de faire en sorte que la personne handicapée puisse vieillir dans les meilleures conditions de confort matériel et d'accompagnement moral et affectif.

Une saison de plus Nancy Breitenbach, 1999. Aujourd'hui, les personnes présentant un handicap mental jouissent d'une espérance de vie de plus en plus importante. Ce phénomène démographique génère des problèmes nouveaux, peu ou pas anticipés et qui ont des conséquences de plus en plus importantes pour l'individu, son entourage et les dispositifs de prise en charge. Depuis les années quatre-vingt, les familles, les associations, les praticiens de terrain et les responsables de la politique sociale s'interrogent sur le vieillissement des personnes handicapées mentales et sur la manière de les accompagner pendant ces années de vie gagnées. Si les informations disponibles sur ce sujet sont de plus en plus nombreuses, elles sont aussi très dispersées dans la littérature, comme sur le terrain.
