

Introduction

It is important to identify and evaluate the most effective forms of leadership in any business. Given the specialised nature of most firms, adapting a 'one-size-fits-all' approach is likely to manifest costly issues. Employee retention and motivation, for a profit-maximising firm, are direct resultants of the leadership style a manager adopts. In my essay, I will analyse the impact of effective leadership styles across a range of real-world examples, and consider the impact of traditional and more modern approaches towards management. By considering the viewpoints of multiple academics, I will analyse both supplementary and contrasting perspectives of leadership to broaden my findings. To this end, my essay will be robust in the scope of its coverage, and relevant in its evaluation of today's corporate environment.

Forms of Leadership

Defining Power

An effective leader, in any situation, has the ability to inspire (or at least convince) others' actions. Effective leadership in a managerial role regards the ability to use power as an influence over their employee's behaviour (Schermerhorn, Davidson, Poole, Woods, Simon, & McBarron, 2014). While 'effective' leadership presents itself as a subjective characteristic, the components that culminate effective leadership can be defined. Power regards a manager's ability to control their subordinate's actions. Given the range of operational structures we see in businesses today, a 'powerful' leader ensures the firm's visions are turned into reality. The notion of power, dependent on a business' structures and motivational theories followed, can be distinguished as either reward-based, coercive, or authoritative (legitimate). Firstly, reward power operates on the assumption that employees will respond positively to rewards. If a manager has the ability to offer (or at least portray) something as the positive benefit an employee will receive, they are said to be exercising their reward power. Conversely, coercive power is the ability to influence actions through punishment (Schermerhorn et al., 2014). Examples of punishment include threats to their employment, and verbal reprimands. Finally, legitimate power results in a leader influencing based on their authority, rather than having to implement rewards or punishments to achieve the same results. It stands to reason that the organisational position should be a sufficient enough source of power for managers. Overall, the use of power can be classified as either a positive or negative force in the business environment (Harness, Ranaweera, Karjaluoto, & Jayawardhena, 2018). In addition, employees' perceptions of their managers contribute to the notion of personal power. Firstly, expert power regards the ability to "influence through special expertise" (Schermerhorn et al., 2014, p. 343). The special expertise of a manager can refer to the acumen they develop from workplace experience; contributing to their reputation as an

Health-Promoting Leadership. The Influence of Leaders on Employee Health Jessica Motzer, 2022-05-06 Seminar paper from the year 2017 in the subject Leadership and Human Resources Leadership grade 1.3 European University of Applied Sciences Hamburg language English abstract This work deals with the question to what extent the concept of health promoting

leadership is suitable for reducing absenteeism among employees Despite the relatively young field of research and the partly one sidedly examined factors the present results read promising To answer the key question an overview of the current state of research is given The relevant terms health and leadership are then narrowed down After a brief retrospective on the history of the emergence of health promoting leadership using socio technical system approaches two instruments are also presented the Health oriented Leadership concept from Franke Felfe and the four level model from Spie Stadler Although the focus of the explanations is on the potential of the health promoting management approach a critical appraisal should also show its limits After all the effects of management components on the health of employees have not been researched for very long The subsequent situation analysis of a case study shows on the one hand the possible effects of absenteeism for companies and their potential causes On the other hand it describes the ways in which a manager can have a direct or indirect influence on their employees or their health Based on this recommendations for action for executives which can also be used beyond the purpose of reducing absenteeism convey an idea of the practical applicability of health promoting leadership

The Reconstruction of Leadership William Foster,1986 The study of leadership has faltered partly because the wrong phenomenon has been studied Whereas the usual definition considers leadership either as a personal property or as a property of position this paper argues that it is a transient phenomenon residing neither in the person nor the situation and one that can be practiced equally well by different social players Four attempts to redefine leadership by Selznick Burns Tucker and Bennis do come closer to developing a hermeneutic view however all imply that leadership is an intrinsic property possessed by certain individuals But in fact leadership resides in actions not in persons Leadership acts are a communal democratic effort founded in the notion of praxis and each act must have a social context and critical audience Three elements of leadership are that it involves the penetration of structure that it must be politically and critically educative and that it is conditioned on language and communication Included in the document are three readings that support this position First Leadership The Socratic Model by L Grob asserts the critical spirit as the ground for all leadership second Leadership Research Choosing Gods and Devils on the Run by M W McCall Jr makes the case that the purpose of leadership research is to display its effectiveness or ineffectiveness and to point out areas for future research and finally Leadership Is a Language Game by L R Pondy explores the potential influence of leaders language on their effectiveness The document includes 4 lists of references and an annotated bibliography of 26 suggested readings RG
