Lucy Calkins Kindergarten Workshop:

Catching Readers Before They Fall Pat Johnson, Katie Keier, 2010 Using examples from both adults and children the authors explain and describe the complex integrated network of strategies that takes place in the minds of proficient readers strategies that struggling readers have to learn in order to construct their own reading processes The examples and scenarios of teacher student interactions in this book provide a sense of how it looks and what it sounds like to teach strategic actions to struggling readers book cover Storytelling in Early Childhood Teresa Cremin, Rosie Flewitt, Ben Mardell, Joan Swann, 2016-12-08 Storytelling in Early Childhood is a captivating book which explores the multiple dimensions of storytelling and story acting and shows how they enrich language and literacy learning in the early years Foregrounding the power of children's own stories in the early and primary years it provides evidence that storytelling and story acting a pedagogic approach first developed by Vivian Gussin Paley affords rich opportunities to foster learning within a play based and language rich curriculum The book explores a number of themes and topics including the role of imaginary play and its dynamic relationship to narrative how socially situated symbolic actions enrich the emotional cognitive and social development of children how the interrelated practices of storytelling and dramatisation enhance language and literacy learning and contribute to an inclusive classroom culture the challenges practitioners face in aligning their understanding of child literacy and learning with a narrow mandated curriculum which focuses on measurable outcomes Driven by an international approach and based on new empirical studies this volume further advances the field offering new theoretical and practical analyses of storytelling and story acting from complementary disciplinary perspectives This book is a potent and engaging read for anyone intrigued by Paley's storytelling and story acting curriculum as well as those practitioners and students with a vested interest in early years literacy and language learning With contributions from Vivian Gussin Paley Patricia Patsy Cooper Dorothy Faulkner Natalia Kucirkova Gillian Dowley McNamee and Ageliki Nicolopoulou Children's Play, Pretense, and Story Susan Douglas, Lesley Stirling, 2015-12-21 At the heart of this volume is the recognition that children's engagement with play and story are intrinsically and intricately linked The contributing authors share a passionate interest in the development and well being of children in particular through their use of imagination and adaptation of the everyday into play and stories Following these principles the volume explores the connections between play story and pretense with regard to many cultural and contextual factors that influence the way these elements vary in children's lives In a departure from earlier collections on play and story the authors take a particular focus on normative as compared with atypical development This collection begins with an approach to understanding the developmental relationship between play and story which recognizes their similarities while acknowledging their differences Much of the collection addresses pretend play and story in children with autism spectrum disorder an understudied but important group for consideration as these dimensions of their lives and development have often been considered problematic The volume also includes sections on play

and story in classroom settings and play and story across cultures including non English speaking environments such as Israel Romania China and Mexico It concludes with a discussion of how play differs across sociocultural and economic contexts making a unifying claim for the importance of play in children s lives but also calling for an understanding of what play means to very different groups of children
