Scheeren, 2012-02-02 Google is certainly a useful Internet search tool for general topics but most of the

information available on the Invisible Web can't be found through Google. This book explains the value of the Invisible Web and how to access it. Most students and researchers possess only rudimentary Internet searching skills. The majority of school and public librarians are not aware of the breadth and depth of information available on the Hidden Web. This is unfortunate as the ability to navigate the Hidden Web in schools and public libraries is essential to locating the most current and authoritative information. The Hidden Web: A Sourcebook serves as a valuable source of information about the Hidden Web, much of which comprises websites containing statistical information or data from a wide variety of government agencies. The concepts, search techniques, and specific websites presented will be helpful in information literacy instruction and the teaching of research skills.
