An Introduction to Internet-Based Financial Investigations Kimberly Goetz, 2016-04-08 Increasingly employees of regulatory bodies law enforcement agencies and others who are not trained forensic accountants or experienced investigators find themselves responsible for conducting what amount to financial investigations An engineer who oversees the cleanup of a toxic waste site might need to track down the former owners of the site to find the polluter Perhaps the applicable licensing agency receives a complaint that an attorney mishandled a client s money Maybe it s the attorney who needs help finding the assets with which a client s former spouse has absconded Training in investigation techniques tends to be very limited for many employees Training on how to find information without incurring significant expense is virtually nonexistent This book helps fill the void An Introduction to Internet Based Financial Investigations will help anyone who conducts financial investigations as part of their job to reduce their dependence on trial and error by showing them where and how to look Using clear sections describing how to approach an investigation including the ethical perspective what to look for and what you find what free and low cost internet resources are available to support investigations and how to assemble and present the results of investigations Kimberly Goetz guides students and beginning investigators through the complex world of financial investigations

Searching and Researching on the Internet and the World Wide Web Ernest C. Ackermann, Karen Hartman, 2003 Searching & Researching on the Internet & the World Wide Web Karen Hartman, Ernest C. Ackermann, 2005 Hartman and Ackermann both Mary Washington College offer a work on how to search for information on the Internet They thoroughly overview

Internet searching and discuss search tools and strategies directories search engines and specialized tools searching for news and multimedia and citing and evaluating Internet information The strength of this book is the hands on chapters that contain examples meant to appeal to students from a variety of disciplines Each chapter contains practice exercises designed to allow readers to master fundamental search skills Additionally the chapters are compartmentalized allowing readers to skip materials they feel are unnecessary or with which they are already familiar The target audience for this book is readers with little knowledge of Internet searching and those who desire a primer on this topic However this book is also a helpful resource for any level of Web searcher because it contains in depth information on current search engines and their features as well as other relevant Internet search tools
