Education and International Development, 2000-2020 Ian Wash, 2024-08-22 Education and International Development 2000 2020 A Constructivist Critique of the One size fits all Liberal Model advances the claim that there exists a liberal theory of international education Ian Wash argues that the assumed harmony of this model is the main source of dispute in the field of education and international development The liberal thinking behind the aspirations for education the political levers necessary for its effective governance and the ideas behind the policies all have contributed towards growing tensions that prevented international education from achieving optimal functionality Through a qualitative discourse analysis of the key policy documents produced between 2000 and 2020 Wash reveals how the liberal model was discursively constructed as a grand narrative of three acts that chronicles the vision process and outcomes of international education Such a rendering brings an understanding of the hidden conflicts essential for finding a resolution to this policy puzzle thereby improving the prosperity and wellbeing of those in poorer countries *Honest To Goodness* Martin Prozesky, 2019-03-12 Honest to Goodness proposes a new Christian presence that is free of dogmatism exclusivism and biblicism It charts a way back to the spiritual and ethical revolution begun by Jesus of Nazareth one that can make a vital difference to needless evils such as bigotry environmental destruction poverty and violence The book reveals the author's experience of living under against and after apartheid insisting that a faith that does not confront this world's evils is no faith at all but a dangerous betrayal of all that is good beautiful and true Honest to Goodness unflinchingly identifies the grave moral shortcomings that are embedded in traditional Christian beliefs and practices and proposes ways of transforming them into harmony with the divine goodness that the author discerns everywhere Embracing a world of religious diversity science and creative philosophy the book describes a new way of experiencing and expressing the divine It defends faith by moving beyond both theism and atheism My Dark Room Julie Park, 2023-08-03 Examines spaces of inner life in eighteenth century England to shed new light on interiority in literature and visual and material culture In what kinds of spaces do we become most aware of the thoughts in our own heads In My Dark Room Julie Park explores places of solitude and enclosure that gave eighteenth century subjects closer access to their inner worlds grottos writing closets landscape follies and the camera obscura that beguiling dark room inside which the outside world in all its motion and color is projected The camera obscura and its dreamlike projections within it served as a paradigm for the everyday spaces whether in built environments or in imaginative writing that generated the fleeting states of interiority eighteenth century subjects were compelled to experience and inhabit My Dark Room illuminates the spatial and physical dimensions of inner life in the long eighteenth century by synthesizing material analyses of diverse media from optical devices and landscape architecture to women's intimate dress with close readings of literary texts not traditionally considered together among them Andrew Marvell's country house poem Upon Appleton House Margaret Cavendish's experimental epistolary work Sociable Letters Alexander

Pope's heroic verse epistle *Eloisa to Abelard* and Samuel Richardson's novel *Pamela* Park also analyzes letters and diaries architectural plans prints drawings paintings and more drawing our attention to the lively interactions between spaces and psyches in private environments Park's innovative method of spatial formalism reveals how physical settings enable psychic interiors to achieve vitality in lives both real and imagined
