It outlines a simple yet robust framework for analyzing wine as objectively as possible and provides all the background knowledge that you need to interpret your findings, covering everything from grape varieties and vineyard management to winemaking techniques and the world's most important wine styles. It seeks throughout to examine in what ways a particular wine is unique and different from other similar wines. For example, why and in what ways is Pauillac in Bordeaux different from Pomerol, also in Bordeaux? Why and in what ways is Mosel Riesling different from Riesling from the Rheingau or the Nahe or Alsace, Austria, or Australia? This book is dedicated to all wine lovers and should prove particularly useful to amateur and competitive blind tasters, students on higher level wine courses, sommeliers, and anyone else who buys, sells, or recommends wine.
