Life Orientation Grade 1final Examination 2013:

Physical Activity and Sport During the First Ten Years of Life Richard Bailey, Jennifer P. Agans, Jean Côté, Andy Daly-Smith, Phillip D. Tomporowski, 2021-04-12 Evidence suggests that the first 10 or so years of life create the foundation for subsequent participation in recreational and health related physical activity This book brings together researchers and practitioners with expertise in issues related to physical activity physical education and sport during the primary elementary phase of schooling to explore these important issues Combining inter disciplinary perspectives the book addresses the inherent complexity of researching with young children It looks at the evidence on development during the first 10 years and how that evidence relates to physical activity and to sport in pre school school and out of school Finally the book offers a series of national case studies from Asia Europe and Africa demonstrating the importance of age appropriate sport and physical activity This is important reading for any student researcher educator or policy maker with an interest in physical activity and health education in the early years or at primary elementary level paediatric exercise science or youth sport

Research on Emotion and Learning: Contributions from Latin America Camilo Hurtado-Parrado, Carlos Gantiva, Leonardo A. Ortega, Alexander Gómez-A, Lucas Cuenya, Javier Leonardo Rico, 2020-05-11 Latin America has increased its share of world scientific publications by nearly twofold during the last two decades approximately from 2 to 4% Despite this positive trend the scholarly impact of scientific research produced in the region measured in terms of citation rate remains low Two interrelated factors that contribute to this situation is that most research groups tend to work in isolation or in local sporadic collaboration and results are often published in journals that are not indexed in major citation databases e g SCOPUS or Web of Science Ultimately part of Latin American high quality research seems to remain hidden from the rest of the world Over the last decades an important number of Latin American scientists have developed fruitful research agendas on questions on learning and emotion focusing on basic and or translational research with humans and other animal models and implementing diverse methodologies Notwithstanding the important contributions of these research programs Latin American research on emotion and learning has followed the overall trend of other research fields throughout the region namely remaining partially hidden from the large scientific community of the world This Research Topic aimed to engage researchers from Latin America to share their empirical and conceptual work on learning and emotion Ultimately this effort was expected to strengthen and integrate our regional community of experts enhance global networking and establish new challenges and developments for future investigation Peterson's Colleges with Programs for Students with Learning Disabilities Charles T.
