**Theoretical and Practical Teaching Strategies for K-12 Science Education in the Digital Age** Trumble, Jason, Asim, Sumreen, Ellis, Joshua, Slykhuis, David, 2023-01-17. Digital age learners come to the science classroom equipped with a wide range of skills and a wealth of information at their fingertips. Although science and technology have enjoyed a symbiotic relationship, the ubiquity of information technologies requires teachers to modify instruction and experiences for K-12 science learners. Environmental and societal changes have impacted how and when students acquire and synthesize knowledge. These changes compel us to modify and adjust to improve the practice of teaching science to meet the unique needs of students who are growing up in a society dominated by connected digital devices, constant communication, and the ubiquity of information. *Theoretical and Practical Teaching Strategies for K-12 Science Education in the Digital Age* disseminates theory-informed practices for science teachers that increase their instructional effectiveness in teaching digital age learners. It communicates how to increase science educators' understandings of the needs of digital age learners, develops theoretical and practical teaching strategies that align with science content, and integrates technologies for learning with fidelity. Covering topics such as design-based, inclusive science, project-based learning, and science instruction, this premier reference source is an excellent resource for administrators and science educators within K-12 education, pre-service teachers, teacher educators, librarians, researchers, and academicians.

*Inspiring Student Empowerment* Patti Drapeau, 2021-06-14. A practical, comprehensive guide to help educators go beyond student engagement and differentiation to achieve student empowerment. Student engagement continues to be an important goal for teachers, but it shouldn't end there. There is no one-size-fits-all approach to teaching anymore. School districts that have begun to shift their focus from student engagement to student empowerment and from differentiation to personalized learning have seen a rise in test scores, motivation, attention, and self-confidence. When students have voice and choice, they gain control over their learning and their actions and feel empowered to work harder and achieve more. Through sample lessons, strategies, and applications, educators will learn how to shift from engagement to student empowerment, from differentiation to personalized learning, and practical ways to make these strategies work in the classroom. Move from engagement to student empowerment with a comprehensive guide to engaged learning. A comprehensive guide to empowerment. Research-based best practices to promote empowerment. Move from differentiation to personalized learning with a comprehensive guide to refining differentiation practices. A comprehensive guide to personalized learning. Practical
