Job Guide Australi 2009

Jawad Syed, Robin Kramar

Job Guide Australi 2009:

The End of the Job Description Tim Baker, 2016-04-29 That's not my job. If you don't want your employees to say that, why do you start your relationship by giving them a narrow task and competency focused description of their job? We need people to fulfil many different roles at work: yes, the need to do their job, but they also need to contribute positive energy, collaborate and take personal responsibility for innovation and personal development. How do they fit into a traditional job description? It is futile persevering with the job description borne out of the scientific management movement one hundred years ago. The world of work is vastly different to the assembly lines of the Ford Motor Company of the early twentieth century. Building on the phenomenal success of *The End of the Performance Review*, Baker examines four essential Non-Job roles that all employees must fulfil and shows how to create meaningful role descriptions that can help you recruit better people and enable them to deliver better results.

The Sports Management Toolkit Paul Emery, 2011-04-19 The Sports Management Toolkit is a practical guide to the most important management tools and techniques available to those working in the sport and leisure industries. Designed to bridge the gap between the classroom and the workplace, it includes ten free-standing chapters, each of which provides a detailed introduction to best practice in one of the core sports management disciplines. Written in a clear and straightforward style and free of management jargon, the book covers all the key functional areas of contemporary sports management, including marketing, performance management, risk management, human resource management, project management, and finance. Each chapter includes a detailed step-by-step description of the key tools and techniques and their application, a real-world case study to demonstrate the technique in action, plus an extensive guide to further resources and a series of self-test questions. The final chapter offers an extended integrated case study demonstrating how all the key management techniques are combined within the everyday operation of a successful sport or leisure organization. This book is essential reading for all students of sport and leisure management and for all managers looking to improve their professional practice.

Climate Politics And The Climate Movement In Australia Verity Burgmann, Hans Baer, 2012-08-01 Climate change is the hottest topic of the twenty-first century and the climate movement a significant global social movement. This book examines the broad context of Australian climate politics and the place of the climate movement within it. Acting from above are the most powerful forces: corporations and governments, both Labor and Coalition, with the media framing the issues. Climate movement actors in the middle include the Australian Greens, major environmental and climate organisations, think tanks, academics, public intellectuals, and the union movement. Acting from below are the numerous local climate action groups and various regional and national networks. This lowest level is the primary location of the climate movement and grassroots mobilisation, the source of its vitality. To advocate a safe climate and climate justice, the book ends by offering a vision for an alternative Australia based upon the principles of social equity and environmental sustainability.
