remote or isolated spaces Terrie Waddell explores how key trickster infused sites of transition reflect the psychological fragility of their willing and unwilling occupants In differing ways the selected texts Deadwood Grizzly Man Lost Solaris The Biggest Loser Amores Perros and Repulsion all play with inner and outer marginality As this study demonstrates the dramatic potential of transition is not always geared toward resolution Prolonging the anxiety of change is an increasingly popular option Trickster moves within this wildness and instability to agitate a form of dialogue between conscious and unconscious processes Waddell s imaginative interpretation of screen material and her original positioning of trickster will inspire students of media cinema gender and Jungian studies as well as academics with an interest in the application of Post Jungian ideas to screen culture
