Reichl,1999 When the big ball drops on New Year s Eve thousands are there to witness that great glittering sight while millions more watch on national television Times Square may be the cultural hub of America the Crossroads of the World but its lights have not always shone as brightly as they do now Once a glamorous theater district Times Square and 42nd Street had degenerated into a neighborhood known for the winos and sex shops of Midnight Cowboy until New York s business and arts communities stepped in These advocates of urban revitalization exploited cultural and historic preservation arguments to transform a low income entertainment district into a Disney fied tourist mecca Where Ratso Rizzo once kicked cars and hookers plied their trade Mickey Mouse now greets visitors from atop a Disney superstore surrounded by rising office towers theaters and theme restaurants all thanks to huge tax subsidies and government support Alexander Reichl tells the fascinating story of how cultural politics and economic greed transformed the city s physical and social environment with an ongoing multibillion dollar redevelopment program changing the district from a symbol of urban decline to one of urban renaissance He explains the political significance of the historic preservation and arts related approach to urban revitalization showing how it was used to appeal to the upscale values of middle class New Yorkers often hostile to urban renewal He also examines the role of the Walt Disney Company in the project and demonstrates its power to redefine a

premier public space In telling the story of Times Square Reichl reveals much about politics and power at the city level and their relationship to the development of urban space He frames his lively narrative with an illuminating account of how historic preservation initiatives at all government levels have displaced large scale federal urban renewal programs as the dominant approach to urban development and he shows the importance of political discourse and cultural politics in mobilizing public support for urban redevelopment Now that it has been reconfigured for the 21st century Times Square provides a rich and multifaceted case for exploring the latest trends in urban renewal Yet Reichl suggests much that has happened here is regrettable the ousting of low income citizens to serve commercial interests the loss of a culturally diverse entertainment district and the failure to address persistent class and race based segregation in a central urban area By getting to the heart of the Great White Way *Reconstructing Times Square* provides an important look at urban renewal and politics in a changing America

Trends, 1996

Movie Palaces Joseph M. Valerio, Daniel Friedman, 1982 This book explores the potential of U S movie theaters as an important national asset Each of the 4 000 movie palaces constructed during Hollywood s Golden Age as well as the countless smaller theaters modeled after the grander showcases has a role to play in the life of today s cities The first section of the book explores the social and economic history of the movie palace and the significance of the building phenomenon Subjects such as the development of moving pictures the marketing of them to the public and the architectural style of movie palaces are examined The leading theater architects are identified and the decline of the large downtown theaters following World War II is discussed The

second part of the book consists of case studies drawn from projects nationwide which reflect the programming options for theater renaissance. Motivations for movie palace reuse are summarized into three situations: 1 a user needs a facility, 2 a facility needs a user, or 3 a city needs a redevelopment anchor. The third section of the book, which profiles the lessons of the second, includes planning guidelines for theater economic feasibility studies, organizational structures, program environments, and adaptive reuse and operating costs. Four areas of theater function are explored: audience performance, technology, and management. The book concludes with an annotated 76-item list of resources: publications, audiovisual presentations, and organizations helpful to those contemplating movie palace redevelopment. Many sources listed lead to further information in the form of newsletters, bibliographies, and other organizational publications. The book is abundantly illustrated with black and white photographs and architectural drawings. GEA **California. Court of Appeal (1st Appellate District).**

Records and Briefs California (State)., Accessible Design Review Guide Robert R. Grist, 1996. A new and innovative approach to both designing and analyzing proposed and existing facilities for ADAAG compliance. With its emphasis on physical accessibility, the Americans with Disabilities Act Accessibility Guidelines (ADAAG) have far-reaching implications for the design or renovation of virtually all public use buildings and sites in the United States. Yet there has been little guidance on how to design and review the drawings and specifications of an existing or proposed facility to assess its ADAAG compliance. This invaluable reference provides such guidance at last for architects, interior designers, landscape architects, engineers, builders, planners, facilities managers, specification writers, construction code officials, teachers, and students, as well as individuals concerned with access issues. The authors present the ADAAG in an easily understandable format, grouping ADAAG criteria into detailed checklists for specific interior and exterior spaces such as offices, classrooms, retail shops, restaurants, restrooms, and parking garages. This sensible approach makes the review process of any room, building, or site highly manageable. For additional convenience, the presentation parallels the design process from schematic design through construction documents, including detail, schedule, and specification review. Complete with review forms, checklists, graphics, and other information necessary to ensure ADAAG compliance, this thorough guide will prove invaluable to everyone involved with the design or retrofit of accessible buildings and sites. **New Pencil Points**, 1991 *New York Court of Appeals. Records and Briefs*. New York (State)., *Catalogue of the Book Library of the British Film Institute, London, England: Subject catalogue. Alphabetical subject index* British Film Institute. Library, 1975 **Pencil Points** Eugene Clute, Russell Fenimore Whitehead, Kenneth Reid, Elizabeth L. Cleaver, 1938 *Scene Design* Henning Nelms, 1975-01-01. This invaluable guide for amateur and semi-professional groups, high school students, and even puppeteers offers completely practical and specific design and construction instructions for sets, scenery, stage furniture, and props. Handy tips show how to cut down on wasted materials, save time, and work out sightlines. Includes 110 drawings and diagrams.
