of the most important quite dominant processes in architecture is design process and the goal of architecture design is to  
obtain good design Good design has double meaning aesthetic and ethic In architecture the two should be united as a single  
goal that a design process should strive for Moreover an architectural product does not only effect its client and architect On  
a broader level architectural products also effect their surrounding environments In a large scale they may even have an  
effect on the economy and the social and political condition The question is How does an architectural design attain the label  
good design We tried to find the answer through a round table discussion by inviting the two groups of professionals in
