ALLUSIONS IN MYTHOLOGY MIDAS TOUCH

King Midas was a kind man who was rewarded for his good deeds. Midas was granted one wish, so he asked to be able to turn anything he touched into gold. Little did he know that this would be his undoing. He soon discovered that even his food or water turned into gold, making him unable to eat or drink. King Midas begged Dionysus to withdraw the power of his golden touch, and he did. Today, if someone is said to have the "Midas touch," that means they make money no matter what they do. This story of King Midas is a warning to be careful about your wishes.

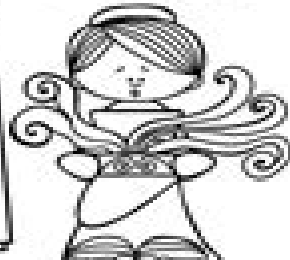

ALLUSIONS IN MYTHOLOGY ACHILLES HEEL

Achilles was a great Greek warrior. When he was born, his mother wanted him to be invincible. She dipped him in the River Styx, but she forgot to dip his heel. Achilles was invincible everywhere except for his heel. He was killed by a Greek warrior who shot an arrow into his heel.

ALLUSIONS IN MYTHOLOGY PANDORA'S BOX

Pandora was a woman who had everything she wanted. She was given a box and warned not to open it. However, Pandora was curious and opened it anyway. When she opened the box, she released pain and suffering into the world. Today, when we say "opening Pandora's box," we mean doing something that could be undone and cause problems. Pandora's story is a reminder that being curious is not always good. Just because we want to know something does not mean we should do it without thinking about what could happen first.

- What does the word invincible mean as it is used in the story?
 - unable to fight due to weakness
 - open to attack or danger
 - too strong to be defeated
- Which sentence makes sense?
 - The runner injured his Achilles heel on the back of his ankle.
 - Although she tried to eat healthy, chocolate was her Achilles heel.
 - The team's strong bond proved to be their Achilles heel.

Nationalist Myths and Ethnic Identities Natividad Gutierrez, 2015-11 This timely study examines the processes by which modern states are created within multiethnic societies How are national identities forged from countries made up of peoples with different and often conflicting cultures languages and histories How successful is this process What is lost and gained from the emergence of national identities Natividad Gutierrez examines the development of the modern Mexican state to address these difficult questions She describes how Mexican national identity has been and is being created and evaluates the effectiveness of that process of state building Her investigation is distinguished by a critical consideration of cross cultural theories of nationalism and the illuminating use of a broad range of data from Mexican culture and history including interviews with contemporary indigenous intellectuals and students an analysis of public school textbooks and information gathered from indigenous organizations Gutierrez argues that the modern Mexican state is buttressed by pervasive nationalist myths of foundation descent and heroism These myths expressed and reinforced through the manipulation of symbols public education and political discourse downplay separate ethnic identities and work together to articulate an overriding nationalist ideology The ideology girding the Mexican state has not been entirely successful however This study reveals that indigenous intellectuals and students are troubled by the relationship between their nationalist and ethnic identities and are increasingly questioning official policies of integration
